Emphasis Area Requirements-Individualized Studies in Forestry: 27 credits

This emphasis area allows students with interests in both forestry and an allied field to obtain a degree in forestry combined with a customized specialization in a field of interest. The allied field can be wildlife biology and management, ecology, environmental science, environmental studies, interpretation of natural resources, environmental law, soils or others. The individualized study program requires completion of 27 credits to be determined by the student and a three-member faculty committee, two of whom must be Forestry faculty.

Individualized study program 27+
