Dr. Peter Motavalli, Director of Graduate Studies
 University of Missouri-Columbia
 Soil, Environmental and Atmospheric Sciences
 302 ABNR Building
 Columbia, Missouri 65211-7250 USA

IMPORTANT NOTES:

(1) Please fill in this form completely and keep this office informed at all times of your current address and phone number.

(2) Please include a letter covering self-evaluation and your professional goals. We would appreciate your including a list of courses in which you are currently enrolled.

(3) MEASLES IMMUNIZATION POLICY: Since the fall semester 1986, the Board of Curators has endorsed a mandatory two-dose measles immunization policy that states that no person born after 1956 shall attend a University of Missouri campus without documented proof of adequate immunizations. To reduce the potential for measles outbreaks, the MU campus has adopted the Centers for Disease Control (CDC) and Missouri Department of Health recommendation that all newly enrolled or readmitted college students provide documentation of two doses of measles vaccine to demonstrate adequate measles immunity. Those entering who do not comply with this policy may not be allowed to register the following semester. This policy excludes students matriculating only in off-campus or continuing education/extension courses. Upon presentation of supportive evidence, a waiver for religious or medical reasons may be granted by the Student Health Center. Questions regarding this policy should be directed to the Student Health Center, (573)882-9109.

(4) Please send all department application information together in one packet. Material sent in multiple mailings can get misplaced or lost thus jeopardizing an application.

(5) Students interested in an assistantship should contact the professor in charge of the assistantship directly.
